

## Release Notes 12/14/2022

This week we completed a release to continue to improve the overall use of the Connected Living eCMS. Please look at the release notes below to find out what changes and fixes were implemented. This release updates only the Admin Portal of the eCMS, as well as fixes an issue with the Android CLC Mobile App.

### IMPROVEMENTS

#### Admin Portal

- Updated the Admin Panel tiles as part of our continued effort to improve the look and usability for our Admin users.

### FIXES

#### Admin Portal

- Resolved the problem with running the Admin Audit Report
- Resolved the issue with missing calendar items

#### CLC Mobile App (Android Only)

- Resolved the issue that prevented some Samsung and Google Pixel users from accessing tiles after scrolling. The fix is available in the latest Google Store update.
