

Connected Living Release Notes 9/28/2022

ECMS/RESIDENT PORTAL

Bulletins

- Honor Order Set for Category – In the drop-down menu for create and edit, the order of the categories was solely alphabetical. This release accounts for the category order set. The ordering works like this:
 - “General” is set in the ordering to appear first.
 - The order selected by the client/community is next. For example, if you set Community Information as 1 and Activities as 2, that order would be honored next, after General.
 - If you have entered several categories with the same number (like 2), all categories with that number would be alphabetized within that grouping.
 - Lastly, the remaining ones not specifically ordered would be alphabetized next.

Calendars

- Allow filtering by Event Category – The view defaults to All. By clicking on a specific category from the list on the left, you can then see only events designated with that category.

Dining

- Identify/Allow a clickable link in the Dining description (For 3rd Party Ordering/Reservations).

Staff Directory

- Allow searches by Job Title.
- Show Street Address(es).

Bug Fixes

- Fixed the issue where a certain type of recurring event was repeating too often (e.g., 2nd Wed, every 3 months).
- Fixed the problem with Bulk User uploads not handling MM-DD (with no year entered).
- Other minor bug fixes.

Connected Living Release Notes 9/28/2022

MOBILE APP

Calendars

- Allow filtering by Event Category – The view defaults to All. Tapping the filter icon in the top right allows you to select a specific category from the list and only see events designated with that category.
- Revamped the Event Detail Page to better display long Venue names.

Dining

- Identify/Allow a clickable link in the Dining description (For 3rd Party Ordering/Reservations).

Manage Communities

- Added a search bar on the manage communities page for ease-of-use when an Admin has a lot of communities.

My RSVP

- This new feature allowing a resident to see events attended in the last month and any RSVPs for events coming up in the next month.

PDF's in Community Resources - ANDROID

- Improved the Zoom function for PDF's.
- Fixed the problems with printing PDF's.

Staff Directory

- Allow searches by Job Title.
- Show Street Address(es).

iOS 16

- Made the necessary changes to ensure our app works with Apple's new iOS.

Server/API Changes

- Made changes “under the hood” to support many items in this release.

Bug Fixes

- Other minor bug fixes.
